Pushkar Saraf

Senior Product Designer | UI/UX | AI-Assisted Development

+91 89-8360-6202 | LinkedIn | Portfolio | Behance

Summary

Product Designer with 5+ years of experience designing SaaS products, intuitive user experiences, and scalable design systems. Experienced in simplifying complex workflows, shaping end-to-end product experiences, and collaborating with cross-functional teams. Combines strong design fundamentals with frontend implementation and AI-assisted development to bring ideas to life beyond the screen.

Professional Experience

Senior Product Designer Jun–Aug 2026
rtCamp Remote, Pune

- Worked directly with the CMO to define and design rtCamp's brand guidelines and design system.
- Collaborated with the marketing team on brand and digital design initiatives.

Design Specialist Nov 2024–Apr 2026
Brainstorm Force Remote, Pune

- Led product design across OttoKit and SureContact, including onboarding, activation, pricing, upgrade, and core product experiences.
- Built reusable design systems and interface patterns to improve consistency and support product development.
- Led the SureTriggers-to-OttoKit rebrand, including brand identity, website redesign, and product interface modernization.
- Redesigned the Astra WordPress dashboard and designed automation workflows, triggers, actions, templates, and multi-step interactions for OttoKit.
- Developed and launched an AI-powered internal tool that helped designers generate and customize design systems.
- Designed and developed responsive SaaS websites using WordPress, Astra, Spectra, and custom frontend implementation.

UI/UX Designer Nov 2023–Nov 2024
tCognition Inc. Kolhapur

- Led design for B2B conversational AI products, focusing on usability and business outcomes.
- Improved website responsiveness, navigation, and visual consistency; authored brand guidelines and collaborated with developers and product managers.

UI Designer Sep–Nov 2023
Independent Projects Freelance

- Designed web and mobile interfaces using user research, wireframes, prototypes, and reusable component systems.

Product Designer Nov 2022–Sep 2023
Wednesday Solutions Pune

- Translated business requirements into end-to-end product experiences, interactive prototypes, and production-ready interfaces.
- Designed a mobile application flow that achieved a 68% Net Promoter Score after multiple design iterations.

UI Designer Jan 2020–Nov 2022
Atos Pune

Client: Allstate Canada

- Redesigned the UI of allstate.ca, modernizing its visual design and improving the mobile browsing experience through iterative sketching, wireframing, and prototyping.
- Contributed to an 8% reduction in customer drop-off through website UI improvements.
- Designed interfaces for Allstate Canada's insurance web portal, working closely with a Senior UX Designer to translate UX direction into clear, consistent screens and interactions.
- Improved visual hierarchy and simplified user flows, contributing to an 11% improvement in website retention.
- Collaborated with developers and product managers in an Agile environment to deliver user-focused interfaces.

Product Development

Pottr *WordPress Plugin*
pottr.tangble.com

- Currently building a WordPress plugin that enables structured data, APIs, app users, and backend events for modern web applications.

- Leading the product experience and using AI-assisted development to explore WordPress as an application layer for client portals, directories, booking tools, and lightweight SaaS products.

Papr Editor *WordPress Plugin*
wordpress.org/plugins/papr-editor

- Designed and developed a distraction-free writing experience for the WordPress block editor using React and Gutenberg APIs.
- Published and maintained the plugin on WordPress.org, including SVN-based deployment and update workflows.
